

# MARIANA RAMOS

FRONT-END DEVELOPER

+351 926 059 708

mary.programms@gmail.com

Portugal, Lisbon

PT > EN > ES

Solution-driven Front-end Developer, looking for multiteams to work with and learn from. Proven experience developing consumer-focused products using HTML, CSS, JavaScript and jQuery. Some of these products required the use of APIs, databases and third-party tracking integrations.

## PROJECTS

**miana** | [Github](#) [Website](#)

**Tech used:** React JS, JSX, CSS

Goal: promote my work and skills, while creating a place to display my projects and to showcase my career.

**CheckIt** | [Github](#)

**Tech used:** HTML, CSS, JavaScript, PHP

Goal: a todo list, created to test more advanced javascript concepts, and work on database/MySQL tech.

**Outter Space** | [Github](#) [Website](#)

**Tech used:** HTML, CSS, JavaScript

Goal: create an HTML5 solution to learn about the solar system in a dynamic and gamified way.

**Pokedex** | [Github](#) [Website](#)

**Tech used:** HTML, CSS, JavaScript

Goal: the typical pokedex, done with the 3 basic techs for a frontend developer, and to test my knowledge on the use of an API.

## EXPERIENCE

**Front-end Developer**

May22 - Present

YDigital Media

- Developed Landing Pages and ad's creatives for digital campaigns, using HTML/CSS, JavaScript and jQuery.
- Worked on internal tools for the other departments.
- Maintained clear communication and organization of projects needs and deadlines with the production team, to ensure good project management.
- Production of simple Ui/Ux designs for small landing pages.
- Worked on creative brainstorming, giving Ux's inputs for the projects.
- Production of simple digital creatives (banners) in Ps and Ai.

**Adops Manager**

Oct19 - Set21

YDigital Media

- Maintained good communication with clients.
- Created ad tracking material for the campaign management team.
- Presented weekly and final reports to clients.
